SUMMARY

Efficient and highly motivated software engineer experienced in full-stack web development, with a focus on front-end solutions and architecture. Proficient in creating and maintaining CI/CD workflows and tooling for engineers, ensuring quality and efficiency. Passionate about solving complex problems, learning new skills, and collaborating with cross-functional teams.

SKILLS

- Angular 2+
- TypeScript, JavaScript (ES6+)
- HTML, CSS
- NodeJS
- Webpack
- Jasmine
- Karma
- Apex (Salesforce)
- Git/GitHub
- Agile Methodology, Scrum

EXPERIENCE

SEPTEMBER 2018 – PRESENT

SOFTWARE ENGINEER, NCINO, INC.

- Developed full-stack, large-scale, enterprise-level software solutions for financial institutions.
- Upgraded and maintained front-end libraries and dependencies to keep pace with current standards.
- Collaborated across development teams and portfolios to align on similar software solutions.
- Created and improved CI/CD processes for engineers, including full setup of new repositories using NodeJS, Webpack, Angular CLI, Lerna, and GitHub workflows.
- Implemented and enforced code test coverage policies to improve overall code quality and robustness.
- Researched and proofed new technical solutions to present to software architects for approval.

NOV 2016 – AUG 2018

SOFTWARE DEVELOPMENT & TESTING, SFREP, INC.

- Desktop software development using C#/.NET, full-stack development using JavaScript and PHP.
- Committed over one million lines of code to production in two years.

- Completed over 20+ projects through all phases of SDLC. Sole developer responsible for QA and testing.
- Created several tools for other technicians and customers using AutoIt and C#/.NET.

DEC 2013 – NOV 2016

TECHNICAL SUPPORT & TESTING, SFREP, INC.

- User-facing technical support for in-house developed software.
- Received several commendations and positive reviews from both customers and co-workers.
- Developed several desktop applications and tools to improve productivity for an entire department.

EDUCATION

MAY 2016

ASSOCIATE OF APPLIED SCIENCE (A.A.S.), SOUTHWESTERN COMMUNITY COLLEGE

Major: Computer Information Systems
3.75 GPA, Magna Cum Laude
